In the past patients would go to their dentist, have a filling or whatever treatment the dentist considered necessary, and go home. There was little discussion regarding treatment options or explanations about the cause of the problem, often we didn't even know which tooth the dentist was even working on.

At Passion Family Dental North Lakes we believe in working with our patients and in delivering a more collaborative approach to your healthcare needs. We explain exactly what we see during your examination, show you the x-rays, give you options and let you decide what you would like to do. It is your mouth after all!

Our patients appreciate that we never try to push treatments or give a hard sales pitch. When you are in our practice you are the ones in charge of your mouth, we simply advise you of the treatment choices and let you decide. Ultimately you are the one driving your own health (and budget).

Time to Put Mum First!

As mums we always put our families needs ahead of our own, often at the expense of our own health. This month we celebrate Mothers Day so now is the perfect time to think of yourself for once. Treat yourself to a massage or a pedicure, or give us a call and have that teeth whitening treatment you have been dreaming of.

We have so many beautiful families coming into the clinic, often we see the children get the treatment they require, and the wives book the husbands an appointment, but we also often hear the mums say "I just don't have time for me". Well put it off no longer ladies! Mothers Day gives you the perfect excuse to finally think of yourself! It is time to be rewarded for all the hard work you do in managing your family, it is time for us to say "Thanks Mum!"

Free Dental Consultation Community Event

Saturday 1 June 2019

CUA (Credit Union Australia), Westfield Shopping Centre
10.00am until 1.00pm

We are giving residents the opportunity to come in and have a chat with a dentist in a relaxed environment, cost and obligation free. This is ideal for those too nervous to go to a dental practice - come in and just talk to us about your concerns and fears. We can work out a plan and help you achieve the smile you were always too frightened to wish for. This is a great opportunity for people who may have questions about looking after their teeth, parents who want to ask about thumb sucking or dummies, or for anyone who has a specific concern they would like to ask us about. The Tooth Fairy will also be paying a visit! She will be doing free face painting and showing children how to look after their teeth.
