## It's our Birthday so Everyone Gets to Celebrate!

# HAPPY BIRTHDAY

It is amazing to think that November see's us celebrating our first birthday. In the past twelve months we have had the privilege of meeting some amazing people and we're truly grateful to each and every patient who has trusted their dental care to us.

We are particularly humbled by the number of patients who have taken the time to write a Google or Facebook review for us, or who have referred a friend or family member. Knowing that our patients are happy and appreciate the work we do is so very rewarding.

To thank our patients and to help celebrate our birthday, anyone who comes in during our birthday week (25.11.19 to 29.11.19) will receive **15% off the standard price of treatments!**

## Happy Mouth and Happy Body

Dentists are always encouraging patients to come in for an exam and clean every six months but do you know why this is so important? Having a thorough professional clean every six months does more than just make your teeth feel lovely and sparkle. These routine appointments also help keep your general health in check.

Dental health has a direct link to other potential health problems such as diabetes, heart disease, stroke and even memory loss and Alzheimer's. Bacteria that grows in oral cavities can be aspirated into the lungs and cause respiratory diseases such as pneumonia. The plaque in our mouth secretes an acid that causes gum disease, this infection can then enter our blood stream and worsen our health problems. As listed on the Australian Dental Associations Oral Health Tracker, a staggering 19.8% of Australians aged over 15 have periodontal disease.

Visiting your dentist regularly so that any oral health issues can be managed easily and early, and to remove the build up of calculus that causes bone loss and sometimes subsequent tooth loss, is essential to our overall health.

Basic dental care could help to promote better health and a longer, more enjoyable life. A happy mouth results in a happy body. Make sure you take the time to brush your teeth twice a day (don't forget to floss!) and visit your dentist regularly.

## CUA Health Expo

**Saturday 16 November 2019—10.00am until 2.00pm**

**CUA (Credit Union Australia)-Westfield Shopping Centre**

We will be joining other health experts at this free community health expo so come down and have a chat and learn more about nutrition, natural therapies, kinesiology and of course dentistry. Have a free hearing test or get your face painted by the Tooth Fairy! We would love to see you there!
