Wow! What a crazy few months we have all had! Hopefully now the worst is behind us and we can move forward into a New Normal with confidence but also with a little caution.

What does the New Normal look like for Passion Family Dental? We have always had higher than required infection control protocols but, with consideration to Covid-19 we have increased our protocols even further. When you visit us you can rest assured that every single surface and item you may touch was cleaned before you came in. Right from the front door, to the pen at reception, the reception desk itself, to our HiCaps (EFTPOS) machine, and of course everything in the treatment room, is thoroughly wiped after every patient.

We are making our appointments a little longer to accommodate all this extra cleaning and to try to avoid patients needing to wait in the waiting room. You will also find an alcohol gel dispenser outside our front door and we ask everyone who comes in to use it before entering.

When you book your appointment, or on the day of your visit, we will give you a call to check how you are feeling. We will check that you are feeling well, with no sore throat or fever, and that you have had no contact with anyone with the virus or a suspected case. Of course all our patients are very considerate of others peoples health and we are sure they would happily postpone their appointment if they are unwell.

The Australian Dental Association also have us asking patients to do a mouth rinse before we commence any treatment, just to help with any bacteria that may be in the mouth.

With these protocols in place we want to reassure our patients that they can feel safe and confident when they visit Passion Family Dental North Lakes. Our patients and our teams health is our priority.

Helping to Ease Financial Concerns

We understand that many families are doing it hard financially at the moment. We have compiled a list of ways that may help when it comes to those much needed dental appointments:

- **Medicare Children's Dental Benefit Scheme**—call us to find out if your child is eligible to receive FREE dental treatment
- **VIP Loyalty Program Discounts**—join our free loyalty program to receive FREE dental consultations and 10% off treatment
- **Promotions**—make the most of our various discounted promotions., details are on our website
- **Government Vouchers**—Healthcare Card Concession holders may be able to access free treatment with using government vouchers
- **Afterpay**—this is a great way to spread you payments over a couple of months
- **Interest Free Payment Plan**—We have partnered with National Dental Plan offering zero deposit and payments spread over six, twelve or 24 months.

Whiter Winter Smile

Our take-home whitening kits are the perfect way to achieve a brighter, whiter smile for Winter. We take impressions of your mouth and make whitening trays that are specifically made just for you. Once a day you put a small drop of our whitening gel into the trays and wear them for about 45 minutes. This system gives you the control on how white you want your teeth and, if stored correctly can be used for months and years to come. **Often private health funds even will help to cover the costs!**
